

2 - THE GLOBE APRIL 29, 2015 WWW.GLOBESLCC.COM

What's Hip, Hot, and Happenin' on Campus

Wednesday

Prevent Child Abuse Lecture

When: 10 am - 11 am & 1 pm - 2 pm Where: Taylorsville Redwood Campus, TB

Acting Showcase

When: 7 pm - 9 pm

Where: South City Campus, Black Box

"Love Walked In" - SLCC Salt City Voices

Where: Miller Campus, Little Theatre

When: 7:30 pm - 9:30 pm

Thursday

Chapbook Launch and Public Reading

When: 6 pm - 7:30 pm

Where: Taylorsville Redwood Campus,

Speakers Showcase

When: 7:30 pm - 9:30 pm

Where: Taylorsville Redwood Campus,

Technology Building, room 203

SLCC Taylorsville Symphony Orchestra

When: 7:30 pm - 9:30 pm

Where: EnergySolutions Arena, 301 W

South Temple, SLC

For more information on these events, please visit www.globeslcc.com/calendar

Friday

Norma Carr Softball Field Dedication

When: 12:30 pm - 1:30 pm

Where: Taylorsville Redwood Campus,

Softball Field

SLCC Softball vs College of Southern Idaho

When: 1 pm - 3 pm

Where: Taylorsville Redwood Campus,

Bruin Field

Piano- Beginning Student Recital

When: 3 pm - 5 pm

Where: South City Campus, Atrium

Piano- Intermediate & Advanced Student Recital

When: 4 pm - 6 pm

Where: South City Campus, Atrium

Bruin Bash - End of the Year Celebration

When: 6 pm - 12 am

Where: Student Center, Taylorsville

Redwood Campus

Saturday

SLCC Softball vs College of Southern Idaho

When: 12 pm - 2 pm

Where: Taylorsville Redwood Campus,

A Story is Born: Writing Birth

When: 1 pm-3 pm

Where: Community Writing Center, Library

Monday

Book Buy Back

When: 8 am - 7 pm

Where: Located at the SLCC Bookstore on

every campus

SLCC Student Honors Recital

When: Noon - 1 pm

Where: South City Campus, Atrium

Tuesday

Book Buv Back

When: 8 am - 7 pm

Where: Located at the SLCC Bookstore on

every campus

Healing & Grief - Surviving college after loss

When: 1 pm - 2 pm

Where: Taylorsville Redwood Campus,

STC 207

Step Ahead.

Planned expansion in the works for SLCC

Dillon Anderson

Contributing Writer

Progress on the Salt Lake Community College Juniper Canyon Campus, the school's new location planned along the east side of the Mountain View Corridor in Herriman, is at an impasse.

Two years after purchasing almost 90 acres of property near the southwest edge of Salt Lake County, SLCC remains unable to break ground on the desired site.

"We don't anticipate the start of construction for at least three to five years, with it probably being closer to five," says Nate Southerland, SLCC Assistant Provost of Academic Support.

While the news may have some locals growing restless, many of the reasons for the delay are in part attributed to the existing transportation infrastructure, or more accurately, the lack thereof.

According to Tami Moody, Director of Communications for Herriman City, campus in-roads are only just being developed while construction on the proposed TRAX line running to the SLCC Juniper Canyon Campus doorstep has yet to commence.

Moody detailed that while Herriman, SLCC and UTA "meet regularly" to align their construction

timelines, the projects may be forced to operate independent of one another.

"We have to collaborate with Riverton, South Jordan and Draper on the [TRAX] line as well," says Moody. "There are a lot of moving parts."

Beyond settling unresolved transit matters, SLCC anxiously awaits approval from the state for the funding of an initial building. Since substantial private donations are scarce, the college will remain in a holding pattern until they gain approval for the funding they need.

Plans for the campus also involve Utah State University and the University of Utah, as both schools will have individual buildings on site, allowing students to earn four-year degrees after graduating from SLCC.

Moody hopes there will be various commercial businesses, such as restaurants and shopping centers that will enhance the area surrounding the school.

In 2000, the United States Census Bureau estimated Herriman's population at just over 1,500 residents. In 2013, the latest census estimated Herriman's population had grown 16 percent, up to 26,000-plus residents, in a 13-year span.

The address for the new campus is 14400 South and 4000 West to serve Herriman and the surrounding area's population growth.

Ways to deal with stress as finals loom on students' horizons

Rachael Folland

Contributing Writer

Salt Lake Community College students find outlets to cope with stress. Destress events gives opportunity for students to relax from their studies.

As spring semester comes to an end, SLCC students are faced with finals, end of semester projects and graduation. Along with that comes one inevitable thing: stress. It is hard to avoid when there is so much pressure to pass a class or complete a term paper. SLCC students identify stressors and ways to handle stress.

"Projects, finals and specifically this year graduating are stressful," says student Rebecca West. "If I write things down, that helps a lot with my tight schedule, as well as teas or herbal remedies."

On April 16, the Health and Wellness Center hosted a "De-stress Fest" in the Student Event Center at Taylorsville Redwood Campus. There were free massages and mood screenings available to SLCC students who wanted to take a break from studying and relax.

"[The] Health and Wellness Center offers stress management techniques in a fun, relaxed and stress-free environment," says Health Promotion Program Manager Tatiana Burton.

According to the National College Health Assessment, stress is the number one reason why students do not do well in academics.

Student Shanae Schouten has been having difficulty preparing child lab lesson plans for one of her child mentoring classes. The stress from all the work put into the lessons really wears on her.

"Running and talking with somebody in my class that knows what it's like really helps [coping with stress]," says Schouten.

The free massages and de-stress events gives the opportunity for students to escape from endless hours of studying. Also, the Health and Wellness Center offers tips on how stress can be dealt with.

It's hard to avoid stress at this time of year, but finding ways to suppress it, can help students deal with school challenges.

8:00 to 10:00 p.m.

Students share summertime

Michael Charles Waters

Contributing Writer

Spring semester is almost over and that means Salt Lake Community College students are making plans for their summer.

SLCC student Drake Bunch made plans to take the summer off and is planning to go to San Francisco with some of his friends. But not all students are taking the summer off. Some have made plans to work and continue to take classes in the summer.

"I will be taking a class at the [LDS] Institute on Monday mornings and then hopefully a couple of classes over at SLCC too," says SLCC student Maddie Pemberton. "I want to knock a couple of things out [over the summer] so I can get my associate's faster."

"This summer I have an internship and I think I'll be taking one or two night classes in between interning and work," says student Landon Cook. "It sounds fun to just party this summer and work and do things like that but I don't want to waste time. I want to try and get my major done as quick as I can."

Cook will be interning for the LDS church helping with the production of Mormon Messages. Cook said that he found out about the internship from school.

"A guy came and talked to the film classes...and I just kind of got set up with it through him," says Cook.

SLCC student Christian Alber also made plans to attend school during the summer

"Over the summer I'm continuing at Salt Lake Community College and I'm cutting my schedule back a little bit so I can work," Alber says. "I'm really bad at math, and if I don't take a math class immediately after this one I don't think I'm going to do well."

Alber encourages students to take classes over

"I just want to get this out of the way. I'm just trying to move through it as fast as I can," says Alber. "At least take a couple of classes...I've not done school over the summer and it's way too hard to come back to it. It gets into a different mode when you just work all summer and are not used to the actual academic aspect."

Bunch also made a suggestion to students.

"If you need to work, work. Do what you need to do, but at the same time try to fit in some fun into your schedule," says Bunch.

SLCC student Maddie Pemberton.

Christian Alber current SLCC student.

Dreams come true for former SLCC student going to Georgia

Bob Burdette

Contributing Writer

Dreams come true for one former Salt Lake Community College student with the following email message:

"It is my pleasure to inform you that you have been accepted into the Ph.D. program in the School of Aerospace Engineering effective fall semester 2015."

The letter came from Georgia Institute of Technology and the recipient, Seth Burdette, is a 2009 graduate of Salt Lake Community College. After

leaving SLCC Seth studied Mechanical Engineering at Brigham Young University. He will graduate from BYU this spring then it is off to Georgia Tech.

The Burdette name might sound familiar to the Graduation Office. Seth is one of five siblings who graduated from SLCC (two in the same year). Each one grew up always knowing higher education was important. The question discussed around the dinner table was not "if" they were going to college. The question was "where" each would attend college.

SLCC was a great place to start the journey that will now take Seth to Georgia. The hard work during high school and during his undergraduate degree is paying great dividends. In addition to being fully funded for his research, Seth has been awarded the Presidential Scholarship at Georgia Tech.

This next step at Georgia Tech will take another five years to achieve. Seth says that in five years he will be five years older whether he continues his education or no. So, why not press onward?

Setting goals in education is one of the secrets to success. Making a plan to graduate is as important as making a plan to get up in the morning. Working hard to stay on track with the plan is the next step toward success.

Tower at Georgia Tech campus.
